

# Vlad Kryklyvets

Passionate Front-End / Full-Stack Developer with over 2 years of commercial experience in building responsive, modern, and user-friendly web applications.

I specialize in developing scalable websites and web applications using modern technologies such as HTML, CSS, SCSS, Tailwind CSS, JavaScript, TypeScript, React, Next.js, Node.js, Prisma, MySQL, PostgreSQL, GraphQL, and REST API.

I have experience working on both freelance and commercial projects, including:

- business catalogs and directory platforms
- corporate websites and landing pages
- admin panels and CRM systems
- e-commerce solutions and online stores
- AI integrations and automation systems
- payment system integrations (PayPal, LiqPay, etc.)
- SEO optimization and performance improvements

Currently, I'm working on real-world commercial projects, collaborating with teams, improving user experience, optimizing applications, and implementing new features for production-ready platforms.

One of my key projects includes a large-scale business catalog platform built with Next.js App Router, Prisma, PostgreSQL, localization support, payment integrations, admin moderation system, SEO optimization, and modern responsive UI/UX.

I also have hands-on experience integrating APIs, databases, authentication systems, AI services, email systems, and third-party platforms into modern web applications.

My stack includes:

HTML / CSS / SCSS / Tailwind CSS

JavaScript / TypeScript

React / Next.js

Node.js

MySQL / PostgreSQL / Prisma

GraphQL / REST API

Docker / Git

Python

AI API / OpenAI API

I'm passionate about clean code, problem-solving, performance optimization, and continuously learning modern technologies to deliver high-quality products.

I'm ready to bring value to your team through strong attention to detail, responsibility, teamwork, and a focus on delivering high-quality results.
